

Quality Policy

Connect NDT Limited is committed to achieving its goal of operational excellence in the provision of non-destructive examination, lifting examination and quality control inspection of equipment within the Oil & Gas, Energy, Manufacturing and Engineering Industries.

We are committed to continual improvement of the Quality Management System by ensuring the risks and opportunities that affect our service are determined and addressed and customer satisfaction maintained.

This Policy provides the framework for establishing Quality Objectives and shall be reviewed regularly for suitability and effectiveness.

The Directors recognise that the requirements of BS EN ISO 9001 place specific responsibilities on the company to improve efficiency and reliability within the workplace to enable customers to have confidence that the organisation can deliver product and service on time, fit for purpose, and compliant with recognised codes and standards.

All equipment used in the provision of the Organisation's services shall be adequately maintained such that performance does not compromise the quality of the service.

The company shall ensure that all employees are suitably trained and competent to perform their roles appropriate to the activities defined in their job description.

The Directors are committed to providing adequate resources to ensure that the Company Objectives can be achieved.

To ensure the continued relevance to the company's strategic direction this policy and associated objectives will be reviewed regularly by top management.

This policy will be communicated to all members of staff and other interested parties, as required, both upon inception and upon any updates.
